

**ISDA 2005 to now 2013
8 years later**

Just for the record I thought I would write this chapter to the current date in a brief overview to current times 2013.

After I separated myself and ISDA from the former group the two main offenders that caused so much trouble and 'bad will' mentioned in the first chapter of ISDA 2000 to 2005 along with misappropriation of funds that did not legally belong to them another story unfolded.

This break-away group from the Founder of ISDA Graham Healy formed another so called association and tried to duplicate the VISION that I had founded and started.

My final comment to the above was quote **"you will reap what you sow"**

One thing I have learned in Business over the years and in ministry as a qualified Christian Minister **the above 'sow and reap' rule is universal.**

Suddenly around 2007 the former secretary of this abovementioned rebel group rang me for help .

SHE HAD BEEN RIPPED OFF IN THE ORDER OF \$80K

yep and you guessed it by the very same culprits that caused all the problems, bad will etc in the first instance, with me.

I felt sorry for this person and referred her to my legal advisors.

I won't bother to bore you the reader with the details as it was all downhill from there the reality is :

ITS ALL ABOUT PERSONAL INTEGRITY AT THE END OF THE DAY

HONOR

RESPECT

INTEGRITY

HONESTY

Unfortunately sadly lacking when its comes to MONEY!

Well thank the Good Lord above ISDA and Graham Healy was free of these 'characters' and moved on.

And by the way I had a similar problem when I bought the famous Commando Moni Isaac out to Australian in 2007 another **'would be if they could be'** crawled out

of the wood-work and yep you guessed with

ABSOLUTELY ZERO FINANCIAL CONTRIBUTION

Caused such a disruption to the good will and tried to disrupt my nation wide Boot camp and workshops .

LESSONS LEARNED

Out of all this from the founding of ISDA to the Founding of Commando Krav Maga in Australia and subsequently Healys' Commando Krav Maga and then further refinements to **Integrated Combat Solutions**

I have come to the following conclusions :

- Everybody is a 'good mate' until it comes to MONEY
- Money is the litmus test of TRUE CHARACTER
- Follow the MONEY trail with somebody and that will reveal their TRUE character
- The Committee mentality will **ALWAYS ACHIEVE NOTHING**
- People of VISION draw others to them not the other way around
- **INTEGRITY of HEART is the Principle Value**

Just Like running the Country Leadership is all about people of VISION if they don't have it then 'the people perish'.

The ISDA started with a VISION and that VISION continues under the stewardship of founder Graham Healy since 2000.

The associates I have in 2013 are men and women of TRUE INTEGRITY and CHARACTER, I have personally been through a lot of 'grief' to evolve to here , I suppose everybody has a journey and a Story to tell, and mine is :

“PURE GOLD DOES NOT FEAR THE TEST OF FIRE”

Yours faithfully ,

Graham Healy
 Founder ISDA 2000 to 2013 “still going strong and the Vision continues”
