

Why I love Chiropractic here is a little history lesson :

George Theroux served in the Canadian army WW1 started in Australia 1923 graduated from Palmer Chiro school USA Nov 1921.(as result of war injuries)

HE WAS BLIND FOR SEVERAL YEARS UNTIL CHIROPRACTIC ADJUSTMENT TREATMENT BROUGHT HIS SIGHT BACK !

George Theroux became a zealot for chiropractic because of what it did for him.

Then a young man by the name of Ross Garfield Coulthard a brilliant student who aspired to be a medical doctor in 1931 was accidentally struck on the head with a hocky stick during a school game.

He developed severe headaches resulting in epileptic fits it left him from top of his class to bottom this continued to get worse for 7 years.

Finally his father took Ross to prominent medical surgeon Sir Henry Newland Australia's top neurosurgeon.

Sir Henry's diagnosis was a "brain tumour" operated and found NOTHING! Yes NOTHING! A complete misdiagnosis. Ross Coulthards father was desperate all HOPE WAS LOST . until finally he was refered to Chiropractor George Theroux (the chiro whose blindness was cured through chiro treatment)

Dr George looked at Ross Coulthards case and after xray diagnosis said quote " **give me 6 months" I believe I can help your son Mr .Coulthard .**

WELL IN JUST 3 MONTHS ROSS COULTHARD WAS CURED NO HEADACHES NO FURTHER EPILEPTIC FITS .

Ross Coulthard then decided to become a Chiropractor took over the aging Dr George Theroux's practice in Adelaide Australia

.Dr. Ross Coulthard continued to become Australia's foremost Chiropractor over for 50 years till he went home to the great Chiropractor in Heaven 1988.

Today Chiropractic is a 5 year Masters university degree (Doctor of Chiropractic) 600 hrs of Anatomy 300 hrs of x-ray diagnosis (13 times more and 3 times more hours studied then a Medical GP) a Dr. Of Chiropractic is similar to an orthopaedic surgeon (but uses only his hands and not the blade)

THAT IS WHY MYSELF & ALL MY CHIROPRACTIC CO STUDENTS ♡ CHIROPRACTIC at www.cqu.edu.au are so passionate about what we can do to HELP PEOPLE !

And the legacy of the Fathers of Chiropractic have forged(and let me say this Women are equally famous in chiro history, Dr.Barbara Brake. Dr.Helen Mac Kenzie to name a few.
